

Dr. Snyder, EdD was a high school principal and is now an adjunct university faculty member. As Principal, he led the successful change process to a later school start time and a unique daily schedule for improved student wellness at Princeton High School (NJ). The change process relied upon and honored the diverse cognitive, problem-solving, styles of an engaged school community. Dr. Snyder continues his work in New Jersey by teaching Educational

Leadership courses at New Jersey City University and the College of New Jersey. He presently resides in Blacksburg, Virginia where he is an adjunct faculty at Virginia Tech and an Affiliated Member of the Center for Cooperative Problem-Solving (CCPS) at Virginia Tech. Dr. Snyder also consults with school administrative teams in New Jersey, Pennsylvania, and Virginia to identify their problem-solving styles and improve collaboration through the use of the Kirton Adaption-Innovation Inventory.

He can be contacted at: snyder05@vt.edu
